- (1) 2 in 1 Duty Belt: Designed as a belt system, the outer duty belt provides superior weight distribution and the inner belt offers extra comfort.
- (2) Durable Outer Belt: The outer belt is made of durable nylon and strong PP lining board, supporting the belt setup weight when attached with multiple police equipment, such as handgun, magazine, handcuff, flashlight, walkie talkie, etc.
- (3) Comfortable Inner Belt: The R&D team designs a widened inner belt composed of silicon and neoprene, which is not easy to deform and upgrades comfort, and relieves the compression from the police equipment.
- (4) Anti-slip Silicone Lining: The inner belt uses the skin-friendly silicone lining and adds anti-slip grain to ensure stability.
- (5) Advanced Velcro Pad: The inner belt adopts the advanced velcro pad to avoid scratches and improve adhesion. It is less likely to damage clothing or stick to hair.
- (6) Shape Preserving: The higher stitching density holds its shape throughout the workday, ensuring its durability and softness.
- (7) Triple Lock Buckle for Security: 2" outer belt features a Tacbull triple lock buckle that is made of durable and strong polymer.

PLATE CARRIERS

40TB-TPCA

Color **BLACK**

The Tacbull Assault Plate Carrier is built with dual soft- and hard-armor pouches, delivering a combat-ready platform engineered for maximum performance in high-risk environments. Designed for both protection and mobility, it ensures the best outcome in the worst situations.

Features

- » Dual Internal Pouch System – Accommodates standard 10" × 12" hard ballistic plates as well as customized soft ballistic or stab-proof inserts.
- » Lightweight & Comfortable – Includes breathable spacer mesh padding and cushioned shoulder pads for extended wear.
- » COMMS & Hydration Routing – Shoulder pads are equipped with two routing channels for communication cables or hydration tubes.
- » Ultra-Light Build – Weighs only 2.7 lbs (empty), ideal for rapid movement and long missions.
- » Low-Profile Configuration – Suitable for covert use as a Low-Vis carrier.
- » Front & Rear Velcro Fields – Attach ID panels, placards, or additional gear.
- » Fully Adjustable Fit – Padded front, back, and shoulder areas with full adjustability to fit over uniforms or soft body armor.
- » Plate Compatibility – Accepts Level III / Level IV Shooter Cut and ESAPI plates.
- » Secure Bottom-Load Plate Design – Plates insert easily and lock in place from the bottom.
- » Reinforced Drag Handle – Secures down with hook-and-loop to prevent snagging.
- » Enhanced Front Protection – Additional front pouches for improved coverage.
- » Integrated Kangaroo Pouch – Holds three .223 / 5.56 rifle magazines.
- » Cumberbund Armor Support – Each side accepts soft armor inserts up to 10" × 6".
- » Quick-Release System – One-hand-operated quick-release buckles for emergency removal.

More than 0.4m² of Protection
Material: Fire-Retardant 500D & 1000D Nylon

The Cytac® Mission-Oriented Plate Carrier is engineered for breathability, flexibility, and comfort during demanding operations. Constructed from premium fire-retardant 500D and 1000D nylon, it accommodates two plates and delivers reliable body coverage of over 0.4m².

The ventilated mesh body enhances airflow to keep you cool—even under heavy exertion—while the extensive laser-cut MOLLE panels provide a lightweight, customizable platform for all essential gear.

Features

- » Fire-Retardant 500D & 1000D Nylon Construction – Durable, flame-resistant materials built for harsh missions.
- » Laser-Cut MOLLE Panels – Lightweight, precise, and compatible with all MOLLE-ready gear.
- » More Than 0.4m² Protection – Offers extensive coverage for enhanced safety.
- » One-Handed Quick Release – Enables rapid emergency removal.
- » Breathable Mesh Body – Promotes airflow for cooler, more comfortable wear.
- » Adjustable Shoulder Straps & Sidebands – Ensures a secure and personalized fit.
- » Reinforced Rear Drag Handle – Provides dependable support for extraction or movement.
